

## REIME TANZANIA ENVIRONMENTAL POLICY

The management of Reime acknowledges that the daily activities undertaken in all our subsidiaries have both direct and indirect impact on the environment. We aim to protect and improve the environment through a sound environmental management plan by adopting best practice within our industry. Reime is committed to ensure that the environmental impact is taken into consideration through sustainable development principles in taking business decisions. The management of Reime and our employees in has committed themselves to the following:

- ❖ The implementation of an Environmental Management Plan that will comply with the requirements of ISO 14001:2004,
- ❖ Continual improvement of our Environmental Policy and Environmental Management Plan,
- ❖ We will set relevant targets and objectives to implement actions necessary to attempt the elimination of Environmental risks,
- ❖ Comply with applicable local, provincial and national environmental legislation and industry codes of practice to enhance the protection of the environment,
- ❖ Minimizing waste through the optimal use of material and resources,
- ❖ Introducing a pro-active waste management program to ensure that any waste is disposed of in an environmentally accepted manner,
- ❖ Involving and obtaining participation from employees, to create an awareness and a caring culture which shall be supported by the relevant training to ensure the effectiveness of our Environmental Management Plan,
- ❖ To ensure this policy is available to the public
- ❖ Ensuring that sub-contractors, who perform work for Reime are included in our Environmental Management System and that compliance is monitored,

The management of Reime shall continually communicate the content of this policy to their employees and will on a quarterly basis have a formal review of this Policy and the Environmental Management Plan to ensure the continuous improvement to our commitment to the Environment.
